NEWS RELEASE

The Consortium for Mathematics and its Applications (COMAP) is pleased to announce the selection of the two teams moving on to represent the USA in the 4th annual **International Mathematical Modeling Challenge, (IM²C)**. The teams were chosen from the 359 teams that represented the USA in the 2017 **High School Mathematical Contest in Modeling (HiMCM)®** contest.

IM²C Teams

The Masters School,

      Advisor: John Chiodo
      Students: Noah Crooks, Miranda Luiz, Henry Williams, Noah Roger

NC School of Science and Mathematics,

      Advisor: Daniel J. Teague
      Students: Keshav Kumar, Matthew Mims, Zack Lee, Sreekar Mantena

The International Mathematical Modeling Challenge, IM²C

The purpose of the IM²C is to promote the teaching of mathematical modeling and applications at all educational levels for all students. It is based on the firm belief that students and teachers need to experience the power of mathematics to help better understand, analyze and solve real world problems outside of mathematics itself – and to do so in realistic contexts. The Challenge is being launched in the spirit of promoting educational change.
